

# EUROVEA GALLERIA SHOPPING CENTRE, SLOVAKIA

## Overview

Eurovea is a new business, retail and residential area of Bratislava sitting on banks of Danube. Transformed from the former industrial zone Eurovea city is home to 3000 residents, 285 000 m<sup>2</sup> of administrative space, 1st skyscraper of Slovakia, 120 cafes, bars and restaurants and 95 000 m<sup>2</sup> of shopping.

## Objectives

Eurovea Galleria Shopping Center is the largest shopping center in Slovakia. Housing more than 150 shops and 17 theaters the shopping center welcomes more than 13.5 million visitors annually.

Rapidrop has supplied the full solution of wet fire suppression equipment including sprinkler heads and flexible hoses to protect premises and lives while complimenting the unique architectural design of the building.

## Solution

Rapidrop flexible hoses (FM, UL, LPCB, VdS, CNBOP-PIB) supplied in a kit including inlets, outlets and brackets were the perfect solution for the wide variety of ceiling types used in individual shops, restaurants, and open areas. Application required a range of support brackets to fit specific ceiling and sprinkler head requirements and elbow outlets were used for installation in shallow voids.

## At a Glance

The provision of flexible hoses and components to Eurovea Galleria Shopping center in Bratislava, Slovakia.

## Products

Complete solution: Flexible hoses (SMB), sprinkler heads – standard pendent & concealed type (white, black). Alarm valves, butterfly valves, fittings (pump room equipment).
